Bongaigaon Refinery (BOR) recently celebrated World Environment Day (WED) 2023, focusing on Solutions to Plastic Pollution with the rest of the world in a befitting manner. As a part of the celebration of WED, several programmes were organised by Health, Safety and Environment Department, including quiz and slogan competition for employees & CSR personnel. A series of outreach programmes were organised, such as on-the-spot painting competition, walkathon and cyclethon. In addition, a 'Naked Netai' was organised to spread the message among the stakeholders based on the WED 2023 theme. A massive plantation drive was undertaken with the planting of 33,000 saplings in collaboration with the ESO, Shri. Sachin's Seema Bili, Kapilganj, Chirang. Similarly, another plantation drive was undertaken in the BOR Township, during which saplings were planted in and around BOR. The tree plantation programme was undertaken by Mr. N. K. Barua, CEO, BOR; Mr. S. S. Sarkar, CSO (HSE); Mr. J. J. Das, CSO (IT) other officials of BOR, BOR Commandant, Representatives from IOCL & NREU representatives from 'Society' and 'Sahasrabahu' ladies associations of Refinery Township. Speaking on this occasion, Mr. Barua urged everyone to remember that we only have one earth, and we are running out of time to save our planet. The WED 2023, the message related to the theme focusing on Solutions to Plastic Pollution came as a clarion call to one and all as humanity grapples with the myriad challenges of plastic pollution and also urge each one of us to adopt responsible conduct both as individuals as well as a community in preserving, nurturing and cherishing the environment. Later, at a dining function in the Refinery Club-Golf Community Centre at BOR Township, winners of various competitions held on the occasion of WED were awarded prizes to the programme. The dining function was presided by Professor Hemanta T. Choudhary, Vice-Chancellor of Assam Science and Technology University, as Chief Guest. Mr. Choudhary explained in detail the pros and cons of plastic use and urged everyone to listen to the clarion call for collective, transformative action to protect and restore our environment. Mr. Choudhary also appreciated the various initiatives of BOR, such as the construction of roads from recycled products etc. (Bongaigaon Refinery, BONG)

Bongaigaon Refinery

Glimpses of the WED celebrations

Bongaigaon Refinery (BGR) recently celebrated World Environment Day (WED) 2023, focusing on Solutions to Plastic Pollution with the rest of the world in a befitting manner. As a part of the celebration of WED, several programmes were organised by Health, Safety and Environment Department, including quiz and slogan competition for employees & CISF personnel. A series of outreach programmes were organised, such as on-the-spot painting competition, walkathon and cyclothon. In addition, a 'Nukkad Natak' was organised to spread the message among the stakeholders based on the WED 2023 theme. A massive plantation drive was undertaken with the planting of 12,000 saplings in collaboration with the 15th Bn, Sashatra Seema Bal, Kajalgaon, Chirang. Similarly, another plantation drive was undertaken in the BGR Township, during which saplings were planted in and around BGR. The tree plantation programme was undertaken by Mr N K Barua, ED & RH, BGR; Mr S B Lahkar, CGM (TS, HS&E); Mr J J Das, CGM (T); other officials of BGR, SSB Commandant, Representatives from IOOA & BGREU representatives from 'SOHINI' and 'SAMANWAY' Ladies Associations of Refinery Township. Speaking on this occasion, Mr Barua urged everyone to remember that we only have one earth, and we are running out of time to save our planet. This WED 2023, the messages related to the theme focusing on Solutions to Plastic Pollution serve as clarion calls to one and all as humanity grapples with the myriad challenges of plastic pollution and also urge each one of us to adopt responsible conduct both as individuals as well as a community in preserving, nurturing and cherishing the environment. Later, at a closing function in the Refinery Club Cum Community Centre at BGR Township, winners of various competitions held on the occasion of WED were awarded prizes in the programme. The closing function was graced by Professor Narendra S Chaudhari, Vice Chancellor of Assam Science and Technology University, as Chief Guest. Mr Chaudhari explained in detail the pros and cons of plastic use and urged everyone to listen to the clarion call for collective, transformative action to protect and restore our environment. Mr Chaudhari also appreciated the various initiatives of BGR, such as the construction of roads from recycled products etc. **(Nilakshi Konwar, AM (Corp Comm), BGR)**

ba Deka, founder member and former president of Gauhati Artists' Guild, a memorial lecture will be held at the Guild tomorrow at 4.30 pm along with an exhibition of Deka's works.

The lecture in memory of Deka will be delivered by distinguished academician Pradip Acharya, while the exhibition will be inaugurated by veteran journalist Ajit Kumar Bhuyan, said a release.

cancies against the posts reserved for specially-abled persons in the State.

In a statement here, the Mahasangha said that the government has allegedly not been filling up these vacancies for quite a long time and it has even been not paying the monthly allowances to the specially-abled persons. This is awfully unfortunate.

The government is now claiming that it has been pay-

such a pass that the specially-abled persons of the State are now forced to take to the streets to highlight their plight by boycotting the official function on the international annual day meant for them. In the face of deployment of police against them on the streets, these hapless people are now forced to urge the government emotively not to be rude to them. This is a very sorry state of affairs, the Mahasangha said.

Int'l meet on renewable energy begins

STAFF REPORTER

GUWAHATI, Dec 5: An 'International Conference on Renewable and Alternate Energy' (ICRAE-2018), the first such conference organised by the Assam Science and Technology University (ASTU), got under way at the NEDFi Convention Centre today.

The inaugural session of the conference was attended by Dr Ajay Mathur, Director General, The Energy Resources Institute (TERI), New Delhi, as the chief guest. He expressed concern over the present impending energy crisis of the world and mentioned how the renewable and alternative sources of energy are becoming inevitable for sustainable development.

BJ Phukan, Director (Tech-

nical) of the Numaligarh Refinery Limited, in his address as the guest of honour spoke on a joint venture company 'Assam Bio-Refinery Pvt Ltd (ABRPL)', which was incorporated in June 2018 with equity participation of 50 per cent by NRL, 28 per cent by M/s Fortum 3BV, the Netherlands, and 22 per cent by M/s Chempolis Oy, Finland.

"The initiative is a pioneering effort, which will use a new technology for conversion of ligno-cellulosic bio-mass to ethanol for the first time in the country on a commercial scale. The plant shall have capacity to process 300 TMT of bamboo (bone dry) and produce 49 TMT of ethanol together with associated platform chemicals," he said.

Earlier, Dr Dhiraj Bora,

Vice Chancellor, ASTU, delivered the welcome address and spoke about the potentials of different alternative energy sources such as solar, bio, wind, hydro, nuclear, etc., for sustainable development.

The conference aims to disseminate and network on renewable and alternative energy research with special emphasis on the subjects with emerging research interests such as bio-fuel, bio-energy, fuel technologies, waste-to-energy conversions, climate change, etc.

The three-day conference will see presentation of papers and over a hundred research articles on renewable energy by scientists, faculty members and young researchers from across the country and abroad.
